

MI-510S PV Module Selector

Technical Specifications

PV cells and modules up to 3000W

6 input channels

Switching capacity 400V / 20A

To test the long-term stability of PV modules, particularly with EKO's MP-165 based outdoors test system, the I-V characteristics of multiple PV cells and modules can be measured. MI-510S module selector gives 6 channels to measure the PV modules sequentially. In total 8 units of the MI-510S can be connected to the MP-165.

	MI-510S
Measurement range Voltage	0.05 - 400 V
Measurement range Current	0.005 - 20 A
Measurement range Power	0 - 3000 W
Operating temperature range	0 - 40 °C
Power supply	100 - 240 VAC, 250W
Dimensions mm	370 (W) x 350 (D) x 133 (H)
Weight	5 kg
Ingress protection IP	-
Input channels #	6
Max. devices #	8
